

## Amber Waves of Grain: An Overview Tour

### Event Date:

Thu, Jul 10, 2014

**Dr. Ari Novy, USBG Deputy Executive Director**

Join Dr. Ari Novy for a tour through the wonderful world of wheat. Learn about how humans have utilized this crop through the ages and how one man saved a billion from starvation in the 20th century with this simple grain. **Please note:** This tour is held outdoors. We suggest bringing sunscreen, protective clothing and water. The tour is canceled if it rains or during times of extreme heat (heat index of 95 degrees or higher/Code Red weather alert).

Date: Thursday, July 10

Time: 10:30 a.m. to 11:30 a.m.

Location: Tour meets on the Terrace in front of the Conservatory

FREE: Pre-registration required
